Where did you come from?

I've been right under your nose

I've gone soft,
My bartender is my guardian angel

Hey! He's asking me again...

Sensitive to bright lights,
the deepest dark
curls my eyes,
flichly.

Okay, I'll call you soon, okay?
You may actually find that thats
essentially what you will find.
That's just great! Thnx

Hmmm

Thanks, but please
don't interrupt, I haven't finished yet.

Painting has endured for centuries,
it has changed its appearance numerous times
yet continues to change afresh.

Hmmm

Forget it, you were saying

They say it's true...

You don't actually
believe it, do you?

Believe what, that art makes
you better?

Mostly the mythological part.
